The **Promotion Simulation** is a sales tool to simulate potential promotions for units in your inventory. It is a quick and easy way to see all the promotions a unit is entitled to, for both you and your customer.

**How to access?**
- Log into BOSSWeb
- Click on the **Sales** tab
- Then, select **Promotion Simulation**

The Sales Promotion dashboard will display two search types. There is the search **By serial number** or the search **By model number**.

To access the search by serial number or model number, simply click on the radio button next to your selection.
Promotion Simulation

Step 1 - Search Criteria

Once you selected the search type, enter the number (serial number or model number) for which you need information. Then, select the **Unit Usage** and enter the **Dates (sale, delivery and registration)**. You can use the calendar tool to select the dates or simply type them in.

**NOTE:** If you are not sure of the **Model Number**, select the model selection button on the right of the box.

The Model Selection box appears:
1. Select the **Product Line**.
2. Then, the **Model Year**.
3. Then, click on the **Next** button.

Once you've entered all the search parameters you need, click on the **Next/Submit** button at the top right hand of the **Promotion Simulation** screen.
The **Promotion Simulation Details** screen is displayed. You may now consult the information.

To consult a specific sales bulletin, please refer to BOSSWeb; under the **ComCenter** tab, select **Promotions**. In the **Promotions** landing page, select the appropriate product line. This will take you to the Promotions Calendar page; now select the sales bulletin for details on the promotion.
